

Dr. Fixit AKTI-VO 201

JOINT COVERS, PROFILES FOR JOINTS AND ACCESSORIES

Description

Dr. Fixit AKTI-VO 201 is a high-performance hydro-expansive mastic for definitively sealing and waterproofing passing bodies and cracks in general.

It is the most effective, resolute solution, through direct intervention on the water flow point.

Areas of Application

- To seal damage to reinforced concrete structures due to shrinkage.
- To seal concrete, metal and plastic pipes embedded into the concrete.
- To create seals, as long as confined, between prefabricated elements.
- Watertight construction joints in reduced section structures.
- Sealing of through-elements and holes in general of the AMPHIBIA membranes.

Features and Benefits

- Resolute intervention on existing structures.
- Also applicable on wet and very uneven surfaces.
- It can support significant loads of water.
- Easy and quick to use.

Method of Application

- Clean the surface from any dust, loose parts and any other material that could compromise the adhesion of AKTI-VO 201.
- Cut the tip of the cartridge according to the size of the curb to be applied along the engraved lines and then pierce the inner protection of the tip with a punch.
- Load the cartridge into the gun and extrude AKTI-VO 201.
- To seal cracks, place AKTI-VO 201 precisely on the line where the crack is made.

Technical Information

PROPERTY	VALUES
Appearance	light grey mastic
Specific weight	> 1 g/cc
Volumetric expansion in water	> 100%

Packing

320 ml cartridge.

AKTI-VO 201 cartridge covers 3.2 Rmt (10 mm x 10 mm groove size).
